

The holidays are not just a time for celebrations, but also a time for distractions and broken routines—when accidents can happen. Medication mistakes are common *holiday accidents* that can be avoided. Medications include prescription and over-the-counter, vitamins and herbal supplements.

Follow the 5 *rights* when taking or giving medicine:

- **The right person.** Be sure the right person is using the medicine and does not take another person's medicine.
- **The right dose.** Always check for the proper amount. Consider writing down each dose to be given.
- **The right medicine.** Read the label—each time—to avoid making a mistake. Know the name of the medicine when giving or taking it.
- **The right time.** Follow the label and take medicine at the correct time of day; some medications are used once a day, some four times a day.
- **The right way.** Follow instructions. Some medicines interact with certain foods, some need to be taken with food, and some should not be taken with other medications.

When one of the above *rights* is a *wrong*—call the Washington Poison Center *right away* at **1-800-222-1222**.

Other medicine safety tips:

- Offer your visitors a safe place to keep their medications, a locking box or drawer.
- Know the abbreviations for tablespoon (Tbsp) and teaspoon (tsp)—use a medication measuring spoon or cup.
- Put your glasses on and turn on a light before taking or giving medication.
- Always use the child-resistant cap and remember they are *not childproof*.
- Store your pet's medication in a different location than human medicine.

When a medication error does occur, do not wait for the person to feel sick; call the Washington Poison Center right away at **1-800-222-1222**. If you are visiting another state, take the number with you; it works for the nearest poison center all across the United States.

The Poison Center is free (except for a \$45 fee for animal calls) and open 24/7—even during the holidays!
